The main focus of the workshop is on the applications of the theory of dynamical systems to the study of the stability of periodic orbits. The workshop will be held at Brunel University, Uxbridge, UK, from 12-13 December 2014. The workshop is organized by Prof. Dr. G. A. Iooss, Brunel University, Uxbridge, UK. The workshop is part of the Research in Mathematics (RMT) program at Brunel University. The workshop is open to all mathematicians interested in dynamical systems. The workshop is free of charge. The workshop is held in English. The workshop is held in a comfortable and modern environment. The workshop is held in a beautiful location. The workshop is held in a convenient location.
